Did You Know...

The city is trying to go as paperless as possible.

There are many benefits to going paperless.

Saves Time

According to the IDC whitepaper, handling paper waste leads to a 21.3% productivity loss.

Cuts costs

The time cost of having to manually input data and physically manage files is saved when agencies move to digital document management. Cost savings can also be realized by not having to print and mail documents to citizens, and through online payment options that reduce the processing costs for transactions.

Enhanced security

Physical paper can be a significant liability for your company. Sensitive files can easily be compromised, and paperwork can be misfiled, destroyed, or lost.

Call the City today and request to start receiving your utility statements by email! If you change your mind and want to go back to paper statements, just call and we can change it back!

We now offer customers that receive a utility bill, monthly rates to join our
FITNESS CENTER!
